

In accordance with "Policy Schedules", the following Countries may usually be automatically insured to or from for agreed and approved clients who have interactive access to this website. Any countries excluded, with restrictions or not automatically covered below may be insured but only with the approval of Underwriters.

Area Category

The Area Category is used for the purposes of calculating the premium relating to a particular consignment entered appropriately into the website.

WNRAD* Column

"Port Only" in this column denotes that cargo insurance cover for this country either:

- commences at Airport/Port only for exports FROM that country (or from Border only if by land conveyance)

Or

- ceases absolutely at Airport/Port only for exports INTO that country (or to Border only if by land conveyance)

In the event that the insured cargo is transported via or through any country listed in the WNRAD column then cover ceases entirely and terminates at the Airport/Port/Border of the listed country with no onward cover being provided unless with the approval of Underwriters.

*WNRAD is an acronym for "Warranted No Risk After Discharge"

War & Strikes Column

"No War" denotes that cover for war and strikes risks as per the relevant Institute Clauses is not automatically provided within the website.
